

Product Description

Charisma is a 195gsm backlit textile with a smooth, non tacky PU (Polyurethane) coating. This material has a bright white point and is highly resistant to bruising. Its lightweight woven construction allows for slight stretch when installing into SEG frame systems. EN13501-1:2010 B-S1, d0 fire rated.

Material Details

CHARACTERISTICS	TEST METHOD	METRIC
Base Fabric	100% DTY Polyester	
Yarn dTex	300dtex	Din 53830
Width	320 cm	ISO22198
Total Weight	195g/sqm	Din 2286-2
Thickness	250um	ISO 9073-2
Flame Resistnace	EN13501	Din 4102-1
Stretch	<1%	

Applications
